ABSTRACT

CEO gender, CEO age, CEO experience, CEO study major and CEO education area are some of the CEO characteristics that can influence the company's sourcing decision making. The company's funding decisions can be reflected by financial leverage. This study aims to determine the effect of CEO gender, CEO age, CEO experience, CEO education specialization and CEO education field on financial leverage. The sampling technique in this study is purposive sampling, with a sample of 50 manufacturing companies that listed on the Indonesia Stock Exchange during 2015-2020 period and 300 observations. The method used is multiple linear regression analysis and the results obtained that CEO gender has a positive effect on financial leverage. , CEO age has a negative effect on financial leverage, CEO experience has no effect on financial leverage, CEO study major has a negative effect on financial leverage, CEO education area has no effect on financial leverage.

Keywords: *CEO Characteristics, Funding decisions, Financial Leverage*
