ABSTRACT

The Program Corporate Social Responsibility is an important part in a company, because it is a concept or action taken by the company as a sense of responsibility for the social and environmental surrounding the establishment of the company caused by the company's operating activities that have positive and negative impacts on the environment around the company. The Program corporate social responsibility has been regulated in the existing legislation in Indonesia, that the company has an obligation to carry out social responsibility to the community, especially to the people who live around the company. Through this social responsibility program, companies can participate in overcoming social, environmental, and economic problems, in order to create a peaceful work environment and the welfare of the people who live around the company. This study aims to determine whether the implementation of corporate social responsibility carried out by the company PT Semen Padang is in accordance with the legal review contained in maqashid sharia. This study uses a qualitative method with a field research approach (research field). and library research, the research method used by researchers is by means of interviews, observations, and documentation to draw conclusions that aim to collect information descriptively and more deeply. After conducting the research, the researcher drew conclusions from the implementation of PT Semen Padang's CSR program whose program consists of environmental development programs, non-PKBL programs, and superior MSME development programs which have been well realized and are also in line with the values of the concept. maqasid syariah its nature preserve that is, keeping religion(hifdz al-din),keeping the soul (hifdz al-nafs),maintaining reasonable (hifz al-aql),keeping the off spring (hifdz al-nasl),keeping possessions (hifdz al- mall), and most of the surrounding communities have a favorable opinion of the activities of the Nagari Forum PT Semen Padang, because they can improve the welfare of the community.
